

Payment Information| Summer 2020

As we prepare our highly anticipated return to the gym, below is how to register your athlete for the summer.

Like we have mentioned, we do not know what is in store for this season so we are NOT asking any family to financially commit for the entire season. You will have the option to register your athlete monthly based on which number group she was placed in (refer to the link below) or you have the option to register them for the entire summer months in one large lump sum. Some groups have been bundled together for registration because they have the same amount of hours and rates are the same. Registration steps are listed below.

**Payments have been based upon how many hours in the gym plus planning and cleaning.*
